Career Objective

Full Stack Web Developer who thrives off being challenged and always wants to be in a position to learn something new. Find an opportunity to use my diverse work history to adapt to any situation and be creative.

Projects

Bamazon: Uses Node, MySql and NPM packages to run a customer and manager command line interface. Link to code: <https://github.com/mschumann82/bamazon>

Friend Finder: Uses HTML, Bootstrap, Node, and Javascript. Project takes form information and matches your responses against others to find your friend match. Link to code: <https://github.com/mschumann82/friendFinder>

LiriBot: Uses Javascript, Node, and NPM packages. LIRI is a Language Interpretation and Recognition Interface. LIRI will be a command line node app that takes in parameters and gives you back data. Link to code: <https://github.com/mschumann82/liriBot>

Technology Skills

HTML | CSS | Javascript | JQuery | Node.js | MySql | AJAX | Express | Handlebars | React | MongoDB
